- Problem Solving

PROJECT

PERSONAL PORTFOLIO WEBSITE   **Link:** https://jothivasan-portfolio.vercel.app/

- **Description**: Developed a personal portfolio website to showcase my projects, skills. The website features a responsive design and interactive elements to enhance user experience.
- **Technologies Used**: HTML, CSS, React, Bootstrap, JavaScript XML
- **Key Features**:
  - **Interactive Components:** Leveraged React to create dynamic components, providing a seamless and engaging user experience.
  - **Responsive Design**: Utilized Bootstrap to ensure the website is fully responsive and visually appealing across various devices and screen sizes.

WEATHER FORECASTING PAGE

- **Description**: Created a weather forecasting page that provides real-time weather updates and adapts to various screen sizes for an optimal user experience.
- **Technologies Used**: HTML, CSS, JavaScript, Open Weather API.
- **Key Features**:
  - **API Integration**: Utilized the Open Weather API to fetch and display real-time weather data for different locations.
  - **Responsive Design**: Ensured the web page is fully responsive, providing a seamless experience on both desktop and mobile devices.

EXPERIENCE
